## SUMMARY

Expertise in Front-end development, proficient in JavaScript, Python, and Amazon Web Service (AWS) Cloud Computing.

## EDUCATION

<b>ALX Africa</b>	Accra, Ghana
Amazon Web Service (AWS) Cloud Computing	May 2023 – Nov 2024
<b>Codetrain Africa</b>	Accra, Ghana
Software Engineering	Sep 2022 – Oct 2023
<b>Kwame Nkrumah University of Science and Technology</b>	Kumasi, Ghana
Bsc. Meteorology and Climate Science	Aug 2016 – Nov 2020

## EXPERIENCE

<b>Assistant Supply and Logistics Officer (National Service) - Ghana Education Service, Korle Klottey Municipal Education Directorate</b>	Sep 2020 – Aug 2021
---------------------------------------------------------------------------------------------------------------------------------------------------	---------------------

- Reduced data entry time for municipal school records by setting daily targets, leading to a more streamlined and effective process.
- Simplified and digitized hard copy documents for easier accessibility and retrieval resulting in a 50% increase in file and data management efficiency.

<b>AWS Cloud Computing Trainee – ALX (Training Program</b>	May 2023– Nov 2024
----------------------------------------------------------------	--------------------

- Designed and deployed reliable, secure and scalable cloud infrastructure using AWS CloudFormation, created automated systems for web applications with EC2, S3 and RDS integrations. Configured Virtual Private Cloud (VPC) architectures to optimize network performance, and ensure secure communication between resources.
- Implemented high-availability solutions by configuring Elastic Load Balancers and Auto Scaling groups, improving systems ability to handle variable traffic loads seamlessly. Conducted performance monitoring, web traffic protection, and troubleshooting.

## SKILLS

- |                                       |                                                                                               |
|---------------------------------------|-----------------------------------------------------------------------------------------------|
| • JavaScript, Python, HTML, CSS, SASS | • Strong team player with excellent, time management, communication and interpersonal skills. |
| • Certified AWS Cloud Practitioner    | • Certified AWS Solutions Architect                                                           |
| • Node.js, Express, MongoDB           | • Proficient in Microsoft Office Suite and Google Workspace.                                  |
| • Django, React.js, React-Native      | • Git, GitHub, Expo                                                                           |
